

Editorial note

In the *Acta Orthopaedica Scandinavica* Supplementum 288, 1999, "Osseointegration in porous coated knee arthroplasty. The influence of component coating type in sheep", by Bellemans, several sentences and paragraphs on pages 21 and 22 were almost identical to those published by Albrektsson in his re-

view, "Osseointegration of bone implants. A review of an alternative mode of fixation" in *Acta Orthop Scand* 1987; 58: 567-577, and no reference to Albrektsson was made. The Editorial Office apologizes for this failure to observe and correct this before publication of the Supplementum.
